November 1997

PH troop to produce memorial video about Colonel Cleveland L. Parker

Dear USAF Public Health, Military
Public Health, Environmental Health, and
Veterinary Service veterans **past and present**,

As you know, the annual award for excellence in our beloved career field is presented to one 4E0X1 (908X0) each year. The award is established in memory of Colonel Cleveland L. Parker, an outstanding officer, gentleman, and father. His legacy and sterling reputation live on in the outstanding enlisted winners of this prestigious award.

We are concerned that, with time, fewer and fewer people on active duty will have any personal memory of Colonel Parker. Therefore, we have resolved to capture the personal testimony of those that knew him so that future Public Health professionals can also know of him.

This resolution has taken the shape of a videotape project and is being led by our very excellent fellow-laborer and 4E,

SSgt Lenny Williams

Lenny is assigned to
America's First Team, the
1st Medical Group
1st Aerospace Medical Squadron
45 Pine Street
Langley AFB VA 23665

DSN 574-5252
Commercial (757) 764-5252
leonard.williams.langley.af.mil

We need your memories, photos, and stories. We especially hope that those of you that knew him will make and send to Lenny a short home-made video testimony.

Lenny also asks all prior Colonel Cleveland L. Parker award recipients to contact him.

If you know any retired members of our family, please pass a copy of this to them!

Please help us capture our collective memory of Colonel Parker while we can. We must have all of the materials collected **by Christmas, 1997.**

As always, thanks for your continuing help,
